## REMARKABLE SUCCESS

Of a New Catarrh Cure. A large and constantly increasing majority of the American people are catarrh sufferers. This is not entirely the result of our changeable climate, but because modern investigation has clearly proven that many diseases, known by other names, are really catarrh. Formerly the name catarrh was applied almost exclusively to the common nasal, catarrh, but the throat, stomach, liver, bladder, kidneys and intestines are subject to catarrhal diseases as well as the nasal passages.

nasal, catarrh, but the throat, stomach, liver, bladder, kidneys and intestines are subject to catarrhal diseases as well as the nasal passages.

In fact, wherever there is mucous membrane there is a feeding ground for catarrh. The usual remedies, inhalers, sprays, douches or powders have been practically fallures, as far as anything more than temporary relief was concerned, because they simply dry up the macous secretions, without having the rematest effect upon the blood and liver, which are the real sources of catarrhal diseases.

It has been known for some years that the radical cure of catarrh could never come from local applications, but from an internal remedy, acting on the blood and expelling the catarrhal poison from the system.

A new internal preparation which has been on the market only a short time has met with remarkable success as a genuine, redical cure for catarrh.

It may be found in any drug store, sold under the name of Stuart's Catarrh Tableis, large, pleasant tasting lozenges, composed principally of antisepic ingredients, Blood root, Red gum and similar catarrh specifica. Dr. Ainslee in speaking of the new catarrh cure says: "I have tried the

## **GENERAL CONFERENCE** WHLL BE ABANDONED

Trainmen Decide to Consult With Individual Managers on the Wage Question.

COMMITTEE UNABLE TO AGREE.

Believe Better Headway Can Be Made if Conductors and Brakemen Will Call Upon Their Officials.

The waste increase committees of the Western roads have decided to discontinue the general conference with the managements of all the roads who have met them

for the last two days. Until the matter is settled each committee of trainmen and conductors of the roads will present demands for a 20 per cent increase to the managements of the roads by whom they are employed.

This decision was arrived at yesterday. It was due to the fact that the leaders of the orders, P. H. Morrissey, grand master of the Order of Railway Trainmen, and A. B. Garretson, chief vice counselor of the Order of Conductors, have been conferring with

the management of the Western roads for two days without making headway.

It was decided that the interests in the matter of increase were subject to too di-verse conditions, and for that reason the officials and the men had better settle the matter without outside advice.

A. B. Garretson was seen and asked for

a statement as to the progress of the wage-

increase demand.

"We have decided that the committees from the roads had better settle the question with the roads employing them," he said. "We believe we can make better headway in that manner."

"Have you compromised on a demand for a 20 per cent increase of pay?"

NO COMPROMISE EFFECTED. "We have not. We want it understood that when we ask for a 20 per cent increase we want it. As for the matter of additional pay for trains containing over thirty cars, that is another matter of vital mo-

ment.
"In fact, the entire question is by no means a devitalized corpse.
"The first road we will call upon will be the Missouri, Kansas and Texas; after that the appropriate committees will call upon the appropriate committees will call upon the officials of the other roads.

"Our relations during our conference with the managing officers have been distinctly harmonious. We could not reach an agree-ment chiefly because the discussion in the form involved too many complex prob-lems."

Mr. Garretson intimated that neither the railway trainmen nor the conductors would make any compromise on their demand for a 29 per cent increase or for extra pay for crews on trains of thirty cars.

WILL CONSULT MANAGERS. Mr. Morrissey stated that the committees would call on the roads instead of meeting their officials with the officials of other roads. Mr. Morrissey said that there was no lack of harmony between either the trainmen and conductors or the officials, but that it was decided that the best way to settle the matter was in the manner stated.

to settle the matter was in the manner stated.

Mr. Morrissey and Mr. Garretson will remain in St. Louis until the matter is settled.

Most of the railroad officials intimated that the 20-per-cent increase demanded is out of the question, and the matter of additional pay for crews on trains of thirty or more cars is not to be seriously considered.

However, on neither side is there the slightest talk of drastic action, and both express themselves as confident that the affair will be amicably settled.

PENNSYLVANIA ROAD ENJOINED. Case Decided by United States Court for Western Union Company.

DEPOSITS. States Circuit Court, District of New Jersey, a decision was filed to-day in favor of the Western Union Telegraph Company restraining the Pennsylvanis road from interfering with the company's lines along the road. The injunction is made permanent

shall be so constructed and made as to not interfere with the ordinary travel on such military roads."

All railroads are declared by law to be post roads.

The deciding Judge, in closing, said:

"In view of the facts presented and for the reason stated, I have decided to make permanent this injunction. In this way the defendants will have an opportunity to appeal to the next term of the Circuit Court of Appeals; while, should the rule be discharged, the complainant would have no appeal and the injury to its property which is threatened would have to be accomplished before the case would have been properly considered. The contention of the defendant company that it has entered into a new contract with another telegraph company and that there is not sufficient room on its right-of-way for the lines of more than one telegraph company, the decision says, ought to await the final determination of the case."

PENNSYLVANIA FILES CROSSBILL. Asks That the Contracts With Western Union Be Terminated.

ern Union He Terminated.

Pittsburg, Jan. 14.—In the legal battle between the Western Union Telegraph Company and the Pennsylvania Railroad Company to-day the Pennsylvania Company to-day the Pennsylvania Company fled a cross-bill in the United States Circuit Court against the Western Union Telegraph Company, alleging that a partnership has existed between the plaintiff and defendant for years, and the court is asked to declare that all contracts and agreements between the defendant and plaintiff terminated and ended as of June 2, 1963.

The court is asked to grant a perpetual injunction restraining the defendant company from in any manner using or occupying the property or any portion thereof of the plaintiff after the second day of June, 1963, and from interfering with the plaintiff in removing the property from all of the lines of the defendant company if deemed necessary.

The Pennsylvania Company also filed an The Pennsylvania Company also filed an

answer and demurrer in the previous case asking that the portion of the agreement that no other company or individual be permitted to build or operate a telegraph line along the right-of-way of the railroad company, be declared void and illegal because it was intended to create a monopoly in the telegraph business.
